

## START PAGE

The start page of the game will provide us Instructions, Highest Score and Start Game options. All the rules and guidelines will be there to play the game in the instruction part. Highest Score will record the maximum and last scores of the user. Grid options based on the numbers will be there which user will select according to easy, medium and difficult levels.

## EASY LEVEL (6 x 10 grid)

## APPEARANCE OF TILES

After random number is generated, it will be having a particular color in its background. Following this the color of the selected tiles will also change. For every chance its color will be changed.
